

This architectural elevation drawing shows a building facade with several distinct sections. On the left, a long, low structure features a red-tiled roof (1) and a wall of vertical corrugated metal siding (2). This section includes a single door (8) and a set of double doors (7). To the right, a taller, two-story building has a red-tiled gabled roof (1) and a light gray facade. It features multiple windows and a central entrance with double doors (7) under a small overhang. A small, square window (6) is located on the ground floor of the taller building. The drawing uses simple lines and flat colors to represent the building's form and materials.

1:100

Architectural elevation drawing of the building facade. The main structure features a gabled roof with a dark, textured finish. The walls are clad in vertical corrugated metal siding. Two small, rectangular windows are positioned side-by-side on the lower level of the gable. To the right of the gable, there is a small, covered entrance area supported by a single wooden post. The building is set against a plain white background, and the entire drawing is enclosed within a dashed rectangular border.

1:100

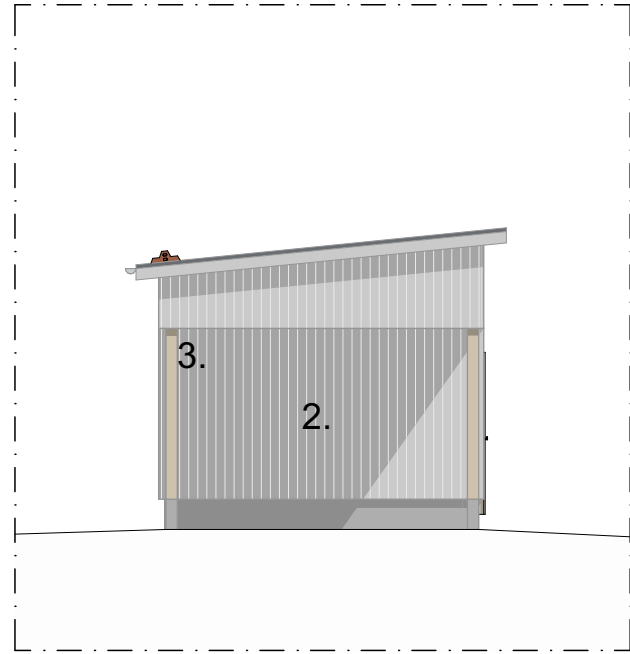

This architectural elevation drawing shows a building facade with several numbered callouts:

- 1.** Points to the roofline of the building.
- 2.** Points to the vertical corrugated metal siding.
- 3.** Points to a vertical structural element, possibly a door frame or post.
- 4.** Points to the horizontal base or foundation of the building.
- 5.** Points to a window on the left side of the facade.
- 6.** Points to a square window.
- 7.** Points to a door.
